

## **Advanced Network Systems Becomes HP Storage Select Authorized Partner**

*Company Broadens their Portfolio of Solutions for Data Storage, Disaster Recovery and Network Virtualization*

**CHARLOTTESVILLE, VA – June 5, 2009.** Advanced Network Systems, Inc. has announced its' newly achieved status as an HP Storage Select Authorized Channel Partner. The certification adds resale capability for HP Storage products, software, services and options to the company's existing portfolio of network infrastructure solutions.

As a worldwide leader in network servers and storage technology, HP's comprehensive selection of products and solutions are designed to meet a range of storage networking needs from small and mid-sized businesses to large corporate enterprises. HP storage networking solutions, including its family of iSCSI Storage Area Networks (SANs), are recognized worldwide for their ability to deliver scale, performance and the broad interoperability needed to protect business data and capitalize on virtualized environments.

According to Lorri Haney, Vice President of Marketing for Advanced Network Systems, "Our new channel relationship with HP in the storage market is a logical fit for our business. It expands our portfolio of storage and data recovery solutions, enabling us to provide more options in terms of functionality, capacity and flexibility for every budget and performance requirement. This improves our ability to help clients make the most of their storage investments, manage their data more easily and scale their storage infrastructures incrementally as their business needs grow."

### **About Advanced Network Systems**
